

Snowball Fight!

The Birchbark House
One Book For Nebraska Kids 2023

This game can be played two ways:

Just for fun - ball up paper from the recycling bin, divide into two teams and see how many snowballs each side can launch onto the opposing side in 1 minute. A good way to get the “wiggles” out.

Discussion questions – print or write a discussion question on each paper, ball up and repeat "just for fun" game, but at the end each player picks up one snowball and asks the question to the group. You can use the discussion questions posted on the website, or have each participate write a question of their own.
