

Library Innovation Studios Project - Laminator Kit

mobile kit #2
LAMINATOR KIT
Fellows Saturn 3i 125

This shows the 12.5-inch laminator that features rapid 1-minute warm-up with InstaHeat technology, hot lamination for 3-mil or 5-mil as well as cold pouches, a release lever for re-centering or removal, and automatic shut-off to save energy and prevent overheating when not in use.

You will only need a small amount of counter or table space (close to an electrical outlet) if you are making just one of two laminated items. You'll need more space for your supplies if you are working on a bigger project.

Popular laminating projects might include luggage tags, ID cards, book marks, signs, instructions/reference guides, menus, calendars, paper dolls, and photo refrigerator magnets.
