3 - No note, added entry

Subfield Codes
$a - Publisher number (NR)
$b - Source (NR)
$6 - Linkage (NR)
$8 - Field link and sequence number (R)

FIELD DEFINITION AND SCOPE

Formatted number used for sound recordings, printed music, and videorecordings. Publisher's numbers that are given in an unformatted form are recorded in field 500 (General Note). A print constant identifying the kind of publisher number may be generated based on the value in the first indicator position.

Numbers that are identified as stock numbers are recorded in field 037 (Source of Acquisition). In case of doubt as to whether a number is a publisher's number, record the number in field 500 or 037. Repeatable for multiple numbers associated with an item.

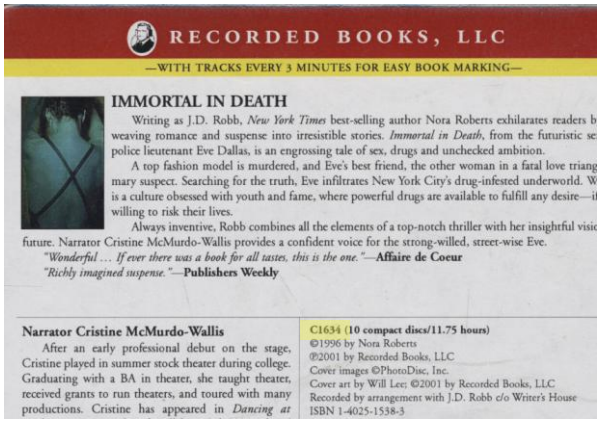
GUIDELINES FOR APPLYING CONTENT DESIGNATORS

■ INDICATORS

First Indicator - Type of publisher number

Second Indicator - Note/added entry controller
Whether a note and/or an added entry generated from the content of this field is required for display.

0 - No note, no added entry
Neither a note or an added entry needs to be generated.



RECORDED BOOKS, LLC

—WITH TRACKS EVERY 3 MINUTES FOR EASY BOOK MARKING—

IMMORTAL IN DEATH

Writing as J.D. Robb, *New York Times* best-selling author Nora Roberts exhilarates readers b
weaving romance and suspense into irresistible stories. *Immortal in Death*, from the futuristic se
police lieutenant Eve Dallas, is an engrossing tale of sex, drugs and unchecked ambition.

A top fashion model is murdered, and Eve's best friend, the other woman in a fatal love triang
mary suspect. Searching for the truth, Eve infiltrates New York City's drug-infested underworld. W
is a culture obsessed with youth and fame, where powerful drugs are available to fulfill any desire—i
willing to risk their lives.

Always inventive, Robb combines all the elements of a top-notch thriller with her insightful visi
future. Narrator Cristine McMurdo-Wallis provides a confident voice for the strong-willed, street-wise Eve.

"Wonderful … If ever there was a book for all tastes, this is the one."—**Affaire de Coeur**

"Richly imagined suspense."—**Publishers Weekly**

Narrator Cristine McMurdo-Wallis

After an early professional debut on the stage, Cristine played in summer stock theater during college. Graduating with a BA in theater, she taught theater, received grants to run theaters, and toured with many productions. Cristine has appeared in *Dancing at*

$j - Language code of subtitles or captions (R)
$2 - Source of code (NR)
$6 - Linkage (NR)
$8 - Field link and sequence number (R)

FIELD DEFINITION AND SCOPE

Codes for languages associated with an item when the language code in field 008/35-37 of the record is insufficient to convey full information. Includes records for multilingual items, items that involve translation, and items where the medium of communication is a sign language. Sources of the codes are: *MARC Code List for Languages* or other code lists such as ISO 639-1 (*Codes for the representation of names of languages - Part 1 : alpha-2 code*).

Languages may also be recorded in textual form in field 546 (Language Note).

Used in conjunction with 008/35-37 (Language). If there is a code in 008/35-37, it is recorded as the first code in subfields $a or $d (for sound recordings) of field 041. If 008/35-37 contains all blanks (No information provided) or the code "zxx" (No linguistic content) and field 041 is being used, e.g., to record the language code(s) of accompanying material, no subfield $a or $d is present. If only a non-MARC code is used to express the predominant language in an item, field 008/35-37 is coded with three fill characters (|||).

Used when one or more of the following conditions exist:

- The item contains more than one language one of which may be a sign language
- The item is or includes a translation
- The language of the summaries, abstracts, or accompanying material differs from the language of the main item
- The language of a table of contents differs from the language of the main item

DEFINITION AND SCOPE

Fields 01X-09X contain standard numbers, classification numbers, codes, and other data elements relating to the record.

CONTENT DESIGNATOR HISTORY

Library of Congress >> MARC >> Bibliographic >> 01X-09X >> 050

050 - Library of Congress Call Number (R)

MARC 21 Bibliographic - Full — October 2000

First Indicator
Existence in LC collection
- No information provided
0 - Item is in LC
1 - Item is not in LC

Second Indicator
Source of call number
0 - Assigned by LC
4 - Assigned by agency other than LC

Subfield Codes
$a - Classification number (R)
$b - Item number (NR)
$3 - Materials specified (NR)
$6 - Linkage (NR)
$8 - Field link and sequence number (R)

FIELD DEFINITION AND SCOPE

Classification or call number that is taken from *Library of Congress Classification* or *LC Classification Additions and Changes*. The brackets that customarily surround alternate class/call numbers are not carried in the MARC record; they may be generated based on the presence of repeated $a subfields.

Second indicator values distinguish between content actually assigned by the Library of Congress and content assigned by an organization other than LC.

Note that only subfield $a is locally defined. The entire field description is repeated here for ease of use of this document.

GUIDELINES FOR APPLYING CONTENT DESIGNATORS

- INDICATORS

First Indicator - Existence in LC collection
Whether or not the item is contained in the LC collections.

- No information provided
Used for all call numbers assigned by agencies other than the Library of Congress.

Definition
Call numbers based on LC classification schedules, but assigned locally. If you are transcribing LC copy, use field 050 for the LC-assigned call number. Use field 055, field 060 or field 070 for call numbers based on LC classification schedules but assigned by the National Library of Canada (NLC), the National Library of Medicine (NLM) or the National Agricultural Library (NAL).

Records may contain field 050 and field 090, but only if field 050 is a word or phrase (e.g., PAR, Newspaper, UNC, or NOT IN LC). Field 090 is **not** retained in the master record if field 050 contains a call number.

If you assign a Library of Congress classification number according to the LC class schedules, use field 090 or field 050 with indicators "14." If the classification portion of your number does not conform to the LC class schedules, use field 099.

23 - Form of item (006/06)

One-character alphabetic code that specifies the form of material for the item.

- None of the following
a - Microfilm
b - Microfiche
c - Microopaque
d - Large print
f - Braille
r - Regular print reproduction
Eye-readable print, such as a photocopy.
s - Electronic
| - No attempt to code

24-27 - Nature of contents (006/07-10)

Up to four one-character codes (recorded in alphabetical order) that indicate whether a significant part of the item is or contains certain types of material. If fewer than four codes are assigned, the codes are left justified and unused positions contain blanks (#).

- No specified nature of contents
a - Abstracts/summaries
Abstracts or summaries of other publications. Not used when a publication includes an abstract or summary of its own content.
b - Bibliographies
c - Catalogs
Also includes lists of collectible objects, such as stamps and coins, or trade catalogs, etc. For catalogs of books, sound recordings, or motion pictures, code b (Bibliographies), code k (Discographies), or code q (Filmographies), are given with code c.
d - Dictionaries
e - Encyclopedias
f - Handbooks
g - Legal articles
i - Indexes
Index to bibliographical material *other* than itself.
j - Patent document
k - Discographies
l - Legislation
Full or partial texts of enactments of legislative bodies, published either in statute or in code form, or texts of rules and regulations issued by executive or administrative agencies.
m - Theses
Thesis, dissertation, or work identified as having been created to satisfy the requirements for an academic certification or degree.
n - Surveys of literature in a subject area
Composed entirely of authored surveys that summarize what has been published about a subject.

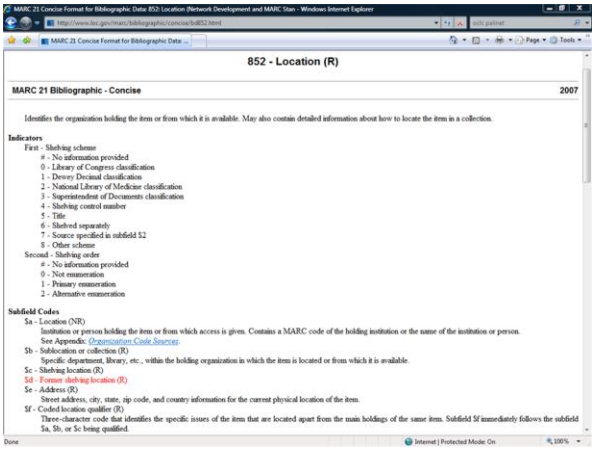
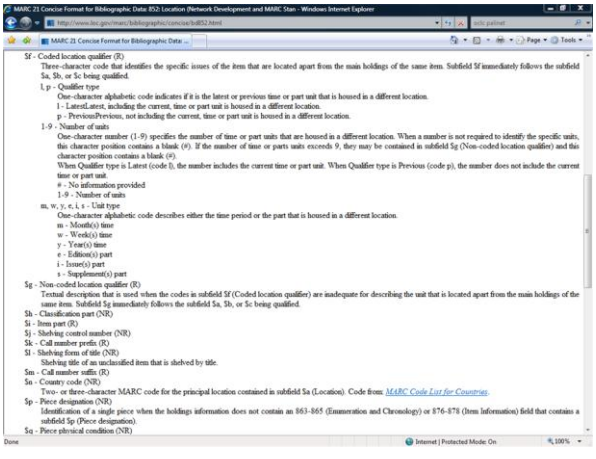
841-88X - Holdings, Alternate Graphics, Etc.-General Information

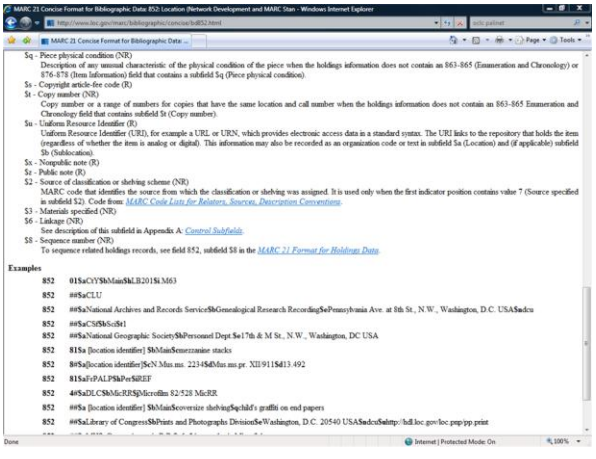
MARC 21 Bibliographic — October 2007

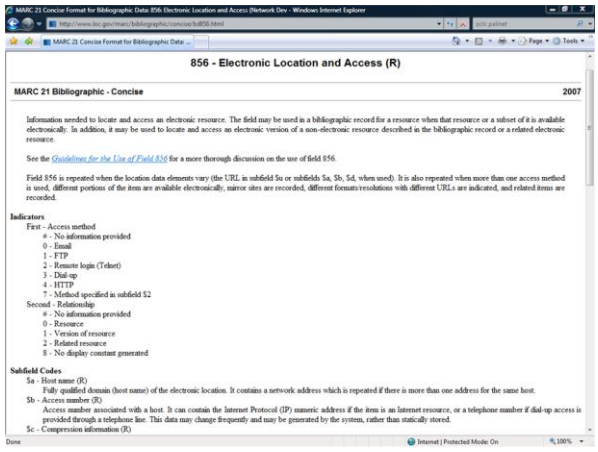


852 - Location (R)

MARC 21 Bibliographic - Concise — 2007







856 - Electronic Location and Access (R)

MARC 21 Bibliographic - Concise 2007

Information needed to locate and access an electronic resource. The field may be used in a bibliographic record for a resource when that resource or a subset of it is available electronically. In addition, it may be used to locate and access an electronic version of a non-electronic resource described in the bibliographic record or a related electronic resource.

See the *Guidelines for the Use of Field 856* for a more thorough discussion on the use of field 856.

Field 856 is repeated when the location data elements vary (the URL in subfield $u or subfields $a, $b, $d, when used). It is also repeated when more than one access method is used, different portions of the item are available electronically, mirror sites are recorded, different formats/resolutions with different URLs are indicated, and related items are recorded.

Indicators

First - Access method
- # - No information provided
- 0 - Email
- 1 - FTP
- 2 - Remote login (Telnet)
- 3 - Dial-up
- 4 - HTTP
- 7 - Method specified in subfield $2

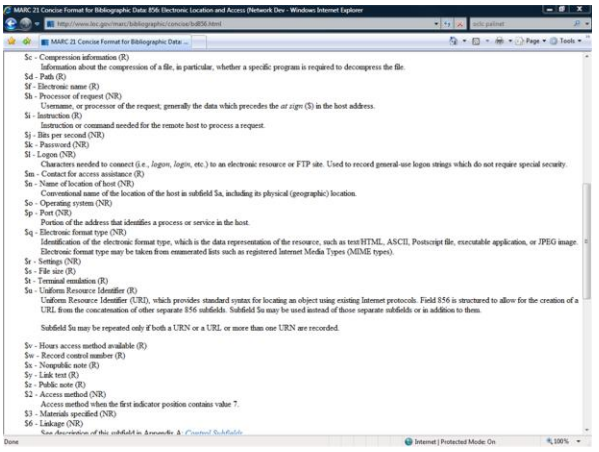
Second - Relationship
- # - No information provided
- 0 - Resource
- 1 - Version of resource
- 2 - Related resource
- 8 - No display constant generated

Subfield Codes

$a - Host name (R)
Fully qualified domain (host name) of the electronic location. It contains a network address which is repeated if there is more than one address for the same host.

$b - Access number (R)
Access number associated with a host. It can contain the Internet Protocol (IP) numeric address if the item is an Internet resource, or a telephone number if dial-up access is provided through a telephone line. This data may change frequently and may be generated by the system, rather than statically stored.

$c - Compression information (R)



$c - Compression information (R)
Information about the compression of a file, in particular, whether a specific program is required to decompress the file.

$d - Path (R)

$f - Electronic name (R)

$h - Processor of request (NR)
Username, or processor of the request; generally the data which precedes the *at sign* ($) in the host address.

$i - Instruction (R)
Instruction or command needed for the remote host to process a request.

$j - Bits per second (NR)

$k - Password (NR)

$l - Logon (NR)
Characters needed to connect (i.e., *logon, login,* etc.) to an electronic resource or FTP site. Used to record general-use logon strings which do not require special security.

$m - Contact for access assistance (R)

$n - Name of location of host (NR)
Conventional name of the location of the host in subfield $a, including its physical (geographic) location.

$o - Operating system (NR)

$p - Port (NR)
Portion of the address that identifies a process or service in the host.

$q - Electronic format type (NR)
Identification of the electronic format type, which is the data representation of the resource, such as text/HTML, ASCII, Postscript file, executable application, or JPEG image. Electronic format type may be taken from enumerated lists such as registered Internet Media Types (MIME types).

$r - Settings (NR)

$s - File size (R)

$t - Terminal emulation (R)

$u - Uniform Resource Identifier (R)
Uniform Resource Identifier (URI), which provides standard syntax for locating an object using existing Internet protocols. Field 856 is structured to allow for the creation of a URL from the concatenation of other separate 856 subfields. Subfield $u may be used instead of those separate subfields or in addition to them.

Subfield $u may be repeated only if both a URN or a URL or more than one URN are recorded.

$v - Hours access method available (R)

$w - Record control number (R)

$x - Nonpublic note (R)

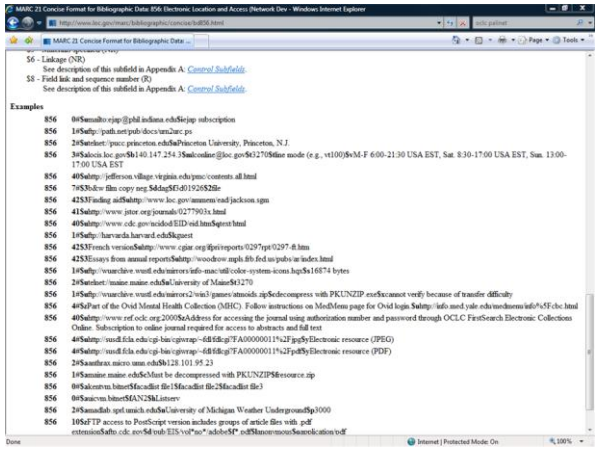
$y - Link text (R)

$z - Public note (R)

$2 - Access method (NR)
Access method when the first indicator position contains value 7.

$3 - Materials specified (NR)

$6 - Linkage (NR)



$6 - Linkage (NR)
See description of this subfield in Appendix A: *Control Subfields*.

$8 - Field link and sequence number (R)
See description of this subfield in Appendix A: *Control Subfields*.
