

Nebraska OverDrive Libraries

Getting started with eBooks & audiobooks On Computers, eReaders, & MP3 players

STEP 1

On your Windows or Mac computer, go to the Nebraska OverDrive Libraries website at nebraska.lib.overdrive.com

NOTE: If you have a Windows 8 or 10 computer or a Chromebook, you can install the OverDrive app and follow our **Via the OverDrive App** instructions to borrow and enjoy digital titles through the app.

STEP 2

To see all titles available to you through Nebraska OverDrive Libraries, and to borrow titles, you must sign in. Click **Sign In** in the upper-right corner of the website. Select your library from the list, and enter your library card number and PIN/Password (if required). Search or browse for available titles. Move your mouse over an available title and click **Borrow**. Borrowed titles will appear on your **Checkouts** page (under your **Account**) on the Nebraska OverDrive Libraries website.

STEP 3

From your **Checkouts** page you can start enjoying most eBooks and audiobooks immediately in your browser with a single click—no software or downloads required:

- Click **Read** to open an OverDrive Read eBook in your browser. To read the eBook later without an internet connection, save it to your browser's cache. To do this, tap or click in the upper-left corner of the screen to open the Read menu. Select **Offline Access** and then the **cloud** icon to download all pages. **Bookmark** or save the URL of the cached eBook so you can retrieve it later.
 - Click **Listen** to play an audiobook in your browser without downloading it. Offline access is not available for OverDrive Listen.
-

STEP 4

For most borrowed titles, you can choose a format to download from your **Checkouts** page. Once you choose a download format, any other downloadable format options for that title will disappear, but you'll always have the option to **Read** or **Listen** in your browser.

- To download EPUB or PDF eBooks to your computer, install free Adobe Digital Editions (ADE) software (get it from adobe.com/solutions/ebook/digital-editions/download.html). Follow the prompts to authorize your computer with a free OverDrive account or Adobe ID. You can then **Download** borrowed OverDrive eBooks from your **Checkouts** page and read them in ADE or use ADE to transfer them to supported eReaders. To transfer eBooks, connect your eReader to your computer. Drag and drop the eBook from your ADE library into your eReader, which should appear on the left under "Devices."
- To send Kindle Books to your Kindle device or to a free Kindle reading app, click **Download** and select **Kindle Book**. Follow the prompts to **Get** your Kindle book from Amazon's website (you will have to login to your Amazon account) and **Deliver** it to your preferred reading platform.
- To download MP3 audiobooks to your Windows or Mac computer, install OverDrive's free desktop app (get it from app.overdrive.com). You can then **Download** borrowed OverDrive audiobooks from your **Checkouts** page and **Play** them using OverDrive's desktop app or **Transfer** them to supported MP3 players.
