
Kurzweil 1000 Version 13 Installation

Please read the bulleted items below before installing Kurzweil 1000 version 13:

- Kurzweil 1000 version 12 must be uninstalled before you can install version 13.
- Kurzweil software is designed for people with low or no vision. The software will speak to you as it is being installed. It is important that you have the audio turned on and that you listen to the installation instructions as you install the Kurzweil software.
- After installing Kurzweil 1000 version 13, you may need to register the product. Use of the software will be limited to two hour sessions until your registration is successful. If after 30 days, you have not registered, you will no longer have access to the full product.
- If Kurzweil 1000 Version 13 is already installed on your system and you attempt to perform an install with the product DVD, a message will indicate that it is already installed and you will then have the option of modifying, uninstalling or repairing the current installation.

Uninstalling Kurzweil 1000 Version 12

To uninstall an earlier version of Kurzweil 1000 complete the following steps.

1. Log on to the computer using the Staff account. The Staff user account on your ADA computer is an administrative user account.
2. Disable the security software on the computer.
3. Open the Start menu from the Windows taskbar.
4. Go to the All Programs menu and click on the Kurzweil Educational Systems folder.
5. From the Kurzweil Educational submenu, choose Uninstall Kurzweil 1000.
6. Confirm that you want to uninstall the software by clicking on the yes button.
7. "Do you want to allow the following program to update software on this computer?" Yes.

Installing Kurzweil 1000 Version 13

1. Log on to the computer using the Staff account. The Staff user account on your ADA computer is an administrative user account. Make sure the security software is still disabled on your ADA computer.
2. Shut down all applications. Make sure your headphones are plugged in, and set the volume to comfortably hear the screen reader. The software will speak to you as it is being installed. It is important that you have listen to the software however if you know the answer to an install question you can select the correct option even though the software may still be reading the information on the screen.
3. Place the Kurzweil 1000 DVD in your system's DVD drive.
4. The auto-install process should begin in a few seconds. If it doesn't start, simply click on the Microsoft Start Orb button, then click on Computer, right click on the computer's DVD drive that has the DVD Kurzweil DVD loaded in it and select AutoPlay to start the setup program.
5. Click Run setup.exe and respond yes to "Do you want to allow the following program to update software on this computer?"

Kurzweil 1000 Version 13 Installation

6. At this point the software will start speaking to you. Next, Kurzweil 1000 asks you to choose between voiced installation and screen reader installation. Select Enter and continue with the voice installation instructions.

Before continuing with the installation, however, note the following keyboard keys and their numeric keypad equivalents, which you can use throughout the voiced installation process:

- ENTER key or Accept (top-right key on the keypad) for Yes.
- ESCAPE key or Cancel (top-left key on the keypad) for No.
- F1 key or the Help and Status key (bottom-right corner on the keypad) for Help; Kurzweil 1000 repeats the prompt.
- BACKSPACE key or Rewind (left-most key in row 4 on the keypad) to go back to the previous prompt.

Continue the installation with the following steps:

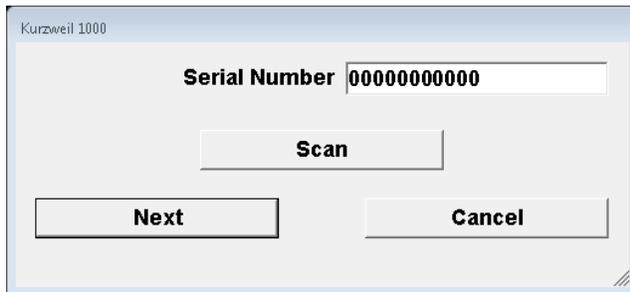

7. A prompt asks if you want to modify the installation options. Press ENTER to modify the options. The system asks if you want to install the following items. Press Enter to install them. Note you do NOT have to wait for the system to completely read the screen before you press enter.
 - American Heritage Dictionary of Human Pronunciation
 - NeoSpeech Kate
 - NeoSpeech Paul
 - American English
 - British English
 - French
 - German
 - Italian
 - Spanish
 - Brazilian Portuguese
 - Finnish
 - English to Dutch and Dutch to English
 - English to French and French to English
 - English to German and German to English
 - English to Italian and Italian to English
 - English to Spanish and Spanish to English
 - Fine Engine & Western European
 - Eastern Europe Asian
8. Next, the system asks whether or not you want Kurzweil 1000 to start automatically each time you start your system. Press Enter. We do NOT want Kurzweil to start automatically.
9. Press ENTER to confirm your choices and proceed with the installation
10. Sometimes computers need to be shut down and restarted in order to complete an installation. If that is necessary, a prompt will ask whether you want to Restart your computer now or later. If prompted restart the computer now. Don't forget when you log back on you will need to log on to the Staff (administrative user) account.
11. At this point, you may remove the Kurzweil 1000 DVD.

Kurzweil 1000 Version 13 Installation

12. Start Kurzweil 1000. After it starts up, it reads the license agreement. Click on the license agreement. Press ENTER to accept the agreement. You do not have to wait for it to finish reading.
13. If you registered your Kurzweil 1000 version 12 software already on your ADA workstation, your version 13 software will automatically be registered after the product software installation is completed. If you never registered your Kurzweil 1000 version 13 software please go to the next section, Registering Kurzweil 1000 version 13, and then return to #14 to complete the software installation.
14. Install the current updates for Kurzweil 1000 version 13.
 - a. Open Kurzweil as an administrative user Kurzweil. Select Online – Updates. The software will search for any updates.
 - b. Select the available items to download. Click OK. Note nothing shows on the screen as the file is being downloaded.
 - c. When the download is complete the software will speak to you and tell you that you need to exit Kurzweil to install the file. Nothing appears on the screen.
 - d. Install the download. When it is done Kurzweil will open.
 - e. Close Kurzweil. Click OK on the KESI Patcher window.
 - f. All selected updates have completed installation.

Registering Kurzweil 1000 version 13

If you previously registered your Kurzweil 1000 version 12 software you should not have to register version 13. To check if version 13 is registered go to Help – Register. If there is a serial number present in

the Serial Number field you will want to verify that the serial number in the field matches the serial number that you have recorded with your records for Kurzweil 1000 version 12. If the serial numbers are the same your product is successfully registered and you have successfully completed the installation of Kurzweil 1000. **Congratulations! You do not need to proceed any further.**

If you do not have a serial number present in the Serial Number field on your computer screen or the Serial Number in the field does not match the Serial Number you have recorded in your records proceed to the following section.

Registration of Kurzweil 1000 Serial Number

When you first install Kurzweil 1000, it is in Demonstration mode. In this mode, all features will be available, but each session is limited to two hours. After 30 days, the product expires. To use the full product right away, it's important that you register. Before you register, here are a few things you must do and know:

1. You will be registering online so your computer must be connected to the Internet.

Kurzweil 1000 Version 13 Installation

2. The registration serial number that you will use to register the Kurzweil 100 version 13 software is the same serial number that you use to register version 12. If you did not register the Kurzweil 1000 v 12 software you will still want to use the registration serial number on the inside of the CD jacket of your version 12 software CD to register Kurzweil 1000 version 13.
3. If you are unable to find your version 12 CD and/or serial number you can call Holly Woldt at 800-307-2665 or 402-471-4871 and she may be able to look up your version 12 serial number. Note the Kurzweil 1000 Customer Service contact information is 1-800-894-5374.

Begin the registration steps:

1. In Kurzweil 1000, open the Help menu. You can use ALT+H. Then press G to select Register. The first of multiple Registration dialogs opens. Some of the dialogs you'll use during the registration procedure have the Next and Back commands. Press ALT+N or the ENTER key to go to the next dialog and ALT+B or ESCAPE to go back to the previous one. To get from one item to another, press the TAB key. In the first dialog, your cursor is in the Serial Number box.
2. Type in the serial number. If you've registered before, the Serial Number box already contains the number.
3. Press TAB then press ENTER to open the next dialog box. Kurzweil 1000 asks you to select the registration method you want to use. Your cursor is in a list box and the options include: Online or Telephone. The Online option is the default and the method that is recommended to complete the registration. Use the UP or DOWN ARROW to select the desired option.
4. Press ENTER to open the next dialog. Skip to the instructions for the registration method you selected.

Registering Online

To use this method, your computer must be connected to the Internet. If you have a firewall, it must be configured to accept Internet access requests from Kurzweil 1000. Otherwise, you will receive messages from the firewall indicating that an unauthorized application is attempting to use the Internet. If you need assistance call Kurzweil 1000 Technical Support. The numbers are: 1-888-995-9905 or 1-800-894-5374. Please listen for and press the Kurzweil 1000 Technical Support extension number.

1. After selecting online registration, one of two things can occur:
 - If you have an existing serial number, and it is associated with only one account, Kurzweil 1000 congratulates you and tells you that you have been automatically registered. It then asks if you want to update your account information. If you answer Yes, Kurzweil 1000 automatically fills in your account information in subsequent Registration screens. Make the desired changes and press ENTER to complete registration.
 - Otherwise, a dialog opens with the cursor in the Account Type box.
2. If a dialog opens, you can select New or Existing in the Account Type box.
 - Select New if you are registering for the first time or with a new serial number. Then go to step 3.

Kurzweil 1000 Version 13 Installation

If Kurzweil 1000 is unable to find your information, you may have to call Kurzweil Educational Systems Customer Service at 781-276-0600 or toll-free at 800-894-5374.

3. In the Account name text box, type your account name. Then TAB to type your password in the Password box. If you are creating a new account, pick a unique name that's easy to remember such as your e-mail address. After typing your password, TAB to retype it in the Confirm Password box. Note: It's a good idea to note this information for future reference, as when you upgrade to the next version.
4. Press ENTER to connect to the Kurzweil Educational Systems Online Registration page. The system verifies that you are online, the server is up, the account exists, and that the password is correct. If it finds information that is incorrect or incomplete, it prompts you to make the necessary changes. Your cursor is in the first of a few online registration dialog boxes. The system prompts for information that is mandatory.
5. Provide or change information. Press ENTER to proceed through these dialog boxes.
6. Press ENTER when you are done. If registration is successful, Kurzweil 1000 congratulates you. The full Kurzweil 1000 product is now activated.
7. You have completed the registration and activation of Kurzweil 1000 version 13. Return to step #14 on page 3 of this document to download updates that are available for this release of Kurzweil 1000. After you have completed step #14 you have completed the installation process for the product.

Using the instructions provided in the document HOW TO VERIFY THAT KURZWEIL 1000 & ZOOMTEXT ARE INSTALLED CORRECTLY verify ZoomText v10 is installed correctly on your ADA workstation.
